SUMMARY

Analytical and detail-oriented graduate in Artificial Intelligence and Data Science with practical experience in data analysis, machine learning, and visualization. Skilled in leveraging tools such as Python, SQL, Excel, and Tableau to extract insights, optimize decision-making, and drive business outcomes. Proven ability to deliver end-to-end solutions through academic and industry projects, complemented by an internship where advanced techniques were applied to generate actionable insights and improve organizational performance.

TECHNICAL SKILLS

- **Languages:** Python, MYSQL, HTML, CSS, JavaScript.
- **Tools:** Microsoft Excel, VBA, Seaborn, Matplotlib, Flask-APIs, Web Scraping, Tableau, Supervised, Unsupervised Machine Learning, Scikit-Learn, Neural Networks, NLTK, VS Code, Jupyter Notebook and MySQL Workbench.
- **Skills:** Data Cleaning & Preprocessing, EDA, Feature Engineering, Machine Learning, NLP, Time Series Analysis, Ensemble Learning, Statistical Analysis, SQL Queries & Optimization and Dashboarding.

PROJECTS

Sentiment Analysis Using Twitter Data | [GITHUB](#)

Developed an end-to-end NLP-based machine learning system to classify Twitter text into positive and negative sentiment. Built and deployed a Flask web application enabling real-time sentiment prediction using a trained ML model.

- Role: Implemented text preprocessing and TF-IDF feature extraction, trained and evaluated ML models, serialized the final model, and integrated it with a Flask backend and HTML/CSS frontend
- Tools: Python (Pandas, NumPy, Scikit-learn), NLP (NLTK, TF-IDF), Flask, HTML/CSS, Pickle, Jupyter Notebook, VS Code, Anaconda.

YT360 – Unlocking YouTube Channel Performance Secrets | [GITHUB](#)

Developed a fullstack YouTube Analytics project to uncover key drivers of channel growth, revenue, and engagement. Designed a predictive ML model to explain ~94% variance in estimated revenue and deployed an interactive Tableau dashboard for actionable insights on video performance.

- Role: Designed project workflow, handled data cleaning & EDA, engineered engagement/revenue features, built Random Forest Regressor, and developed a Tableau dashboard showcasing KPIs and trends.
- Tools: Python (Pandas, NumPy, Seaborn, Matplotlib), Scikit-Learn (RandomForestRegressor), Tableau, Jupyter Notebook, CSV dataset.

Coffee Shop Sales Analysis | [GITHUB](#)

Analyzed coffee shop sales performance using Python and SQL to uncover revenue drivers, customer behavior, and prepare data for predictive modeling. Implemented EDA, forecasting prep, and customer-level insights with both Python and SQL approaches.

- Role: Designed end-to-end pipeline, performed SQL queries (CTEs, window functions), feature engineering, and built forecasting-ready dataset. Contributed to both Python notebook and SQL implementation.
- Tools: Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), SQL, Jupyter Notebook.

PROFESSIONAL EXPERIENCE

Unified Mentor – Remote
Data Analyst Intern

March 2025 – August 2025

- Collected, cleaned, and validated structured and unstructured datasets, ensuring accuracy and consistency for analysis, which improved decision-making efficiency by 15%.
- Conducted exploratory data analysis (EDA) and applied statistical methods using Python (Pandas, NumPy, Matplotlib, Seaborn) to uncover trends, correlations, and actionable insights.
- Applied machine learning techniques (classification, regression, and time-series forecasting) to build predictive models and evaluate business outcomes.
- Utilized SQL, Python, and Excel for advanced data manipulation, querying, and automated reporting, reducing manual effort by 30%.
- Designed and developed interactive dashboards in Tableau to monitor KPIs, track performance, and support data-driven decision-making.
- Collaborated with cross-functional teams to deliver end-to-end analytical solutions and provide strategic recommendations for reporting improvements.

CERTIFICATIONS

- **Data Visualization in Tableau & Python** – Udemy
- **Data Science Job Simulation** – BCGX (Forage)
- **Advanced Microsoft Excel & VBA** – Udemy
- **Data Analytics Essentials** – Cisco Networking Academy
- **Python for Data Science** – Reliance Foundation
- **AI Tools & ChatGPT Workshop** – Be10x

EDUCATION

SHADAN COLLEGE OF ENGINEERING AND TECHNOLOGY
B.tech, Artificial Intelligence & Data Science – 7.08 CGPA

Hyderabad, India
08/2023 – 06/2026

MAHAVEER INSTITUTE OF SCIENCE AND TECHNOLOGY
Diploma, Electrical & Electronics Engineering – 7.83 CGPA

Hyderabad, India
10/2020 – 04/2023
